RE: Minor NSR Registration, Indian Country – Report of Change of Ownership of Siemens Parker Facility from Siemens Industry, Inc. to Siemens Water Technologies, LLC

Dear Mr. Rios:

Siemens Industry, Inc. (Siemens Industry) is registered as a minor source of air emissions under the Indian Country New Source Review Program in connection with its operation of the Siemens activated carbon regeneration facility in Parker, Arizona. As part of a corporate restructuring, on July 1, 2013, Siemens Industry transferred ownership of certain assets, including the Parker facility, to a new entity, Siemens Water Technologies LLC (Siemens Water Technologies), a limited liability company which is wholly owned by Siemens Industry.

Siemens Water Technologies and Siemens Industry are both part of the Siemens family of companies, ultimately owned and controlled by Siemens A.G., a publicly held company headquartered in Germany. Siemens Water Technologies does not plan to make any immediate changes or additions to the Parker facility that would affect the terms or conditions of the facility's minor source registration.

Pursuant to 40 C.F.R. § 49.160(d)(2), we are providing this written report of the change of ownership of the Siemens Parker facility, and we request that your office reflect the change in its records, effective July 1, 2013. We are also submitting a copy of an Agreement For Transfer of Permit Responsibility, Coverage, and Liability entered into by Siemens Industry and Siemens Water Technologies.

If you have any questions or concerns, please contact me at 928.669.5758 Ext. 17 or monte.mccue@siemens.com.

Sincerely,

Monte McCue
Director of Plant Operations
Siemens Parker Facility

Enclosure

cc: Jack Masella, Siemens Water Technologies
Roy Provins, Siemens Water Technologies

**AGREEMENT FOR TRANSFER OF
PERMIT RESPONSIBILITY, COVERAGE AND LIABILITY**

WHEREAS, Siemens Industry, Inc. ("Permittee") is the owner of certain facilities at the locations identified on Attachment A to this Agreement (the "Facilities").

WHEREAS, Permittee has obtained or has entered into environmental permits, licenses and approvals issued by federal, state, country or municipal governmental authorities (the "Permits") related to its ownership or operation of the Facilities.

WHEREAS, as a result of internal corporate restructuring, Siemens Water Technologies LLC ("Transferee"), a wholly owned subsidiary of Permittee, will become the owner of the Facilities.

WHEREAS, as part of the internal corporate restructuring, Permittee intends to transfer ownership of the Facilities to Transferee on or about July 1, 2013.

WHEREAS, Transferee has agreed to assume the responsibilities and obligations of the Permits as of the date of transfer.

WHEREAS, as part of completing the internal corporate restructuring, the parties to this Agreement intend to transfer the Permits, and responsibility and liability for the Permits, to Transferee, to the extent permitted by law.

NOW THEREFORE, by their signatures below, the Permittee and Transferee agree as follows:

1. Permittee and Transferee hereby agree, to the extent permitted by law, to the transfer from Permittee to Transferee of all of the Permits for the Facilities.
2. Permittee and Transferee agree to execute and submit all necessary applications to the appropriate regulatory authorities to accomplish the contemplated transfer of the Permits.
3. Pending any required regulatory approvals for the transfer of the Permits, Permittee and Transferee agree that the transfer of responsibility, coverage and liability for the Permits shall be effective upon transfer of ownership of the Facilities, on or about July 1, 2013.
4. Transferee has no immediate intent to change the operations and processes at the Facilities.

IN WITNESS WHEREOF, the undersigned have executed this Agreement on behalf of Permittee and Transferee as of this 1st day of April, 2013.
